PROFILE

A dedicated and skilled front-end developer with experience in developing and maintaining high-quality features for web applications. I have a strong foundation in JavaScript, CSS, and frameworks like Vue.JS, alongside experience in responsive design and API integrations. My experience also includes collaboration in agile development teams and version control using Git. I am passionate about building intuitive user interfaces and continuously learning new technologies.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, Vue.JS, HTML5, CSS3, PHP, SQL, React, jQuery, Python, Quasar, Bootstrap
 - **Tools & Technologies:** Git, GitHub, APIs, Responsive Design,
 - **Additional Skills:** Debugging, Problem-solving, Agile Methodologies
-

WORK EXPERIENCE

Junior Front-End Developer at Digital Engineering Ltd, Bristol (May 2024 – Nov 2024)

- Develop and maintain high-quality front-end features using Vue.JS and Quasar frameworks, ensuring performance and responsiveness across devices.
- Collaborate with the back-end team to integrate user-facing elements with server-side logic via API.
- Utilize Git and GitHub for version control and team collaboration.
- Work closely with the CEO and sales team to gather and implement UI/UX feedback and feature requests, ensuring alignment with the project roadmap.

Senior Travel Operations Specialist at Inside Travel Group Ltd, Bristol (Mar 2022 – Jul 2023)

- Streamlined team workflows by managing shared inboxes, enhancing productivity and customer satisfaction.

- Oversaw the operational delivery of client trips, coordinating reservations and documentation.

Postgraduate Student Administrator at University of Bristol, Bristol (Jul 2021 – Feb 2022)

- Provided administrative support to students and staff, processed admissions, and maintained data systems.

Senior Travel Operations Specialist at Inside Travel Group Ltd, Bristol (Oct 2014 – Jun 2021)

- As above

Product Manager at PQube Ltd, Bristol (May 2013 – Apr 2014)

- Managed the process of bringing Japanese-developed video games to market in Europe - from the submission stage, to manufacture and delivery
 - Coordinated with developers to localise, test and submit the console titles
-

EDUCATION

Full Stack Developer Traineeship at IT Career Switch Ltd (2023)

- Completed a year-long traineeship, gaining hands-on experience in front-end and back-end development through two portfolio projects.

BA (Hons) History of Art at University of Bristol (2009)

PROJECTS

Portfolio Project #1: Gazetteer

- Developed a map-based web app using HTML, CSS, and JavaScript, integrating third-party APIs (Geonames, OpenWeather). Delivered a responsive and user-friendly mobile-first design.

Portfolio Project #2: Company Directory

- Built a personnel database management system using MySQL and PHP, focusing on mobile-first development and error-free performance.

Portfolio Project #3: Neko Band Website

- Developed an official website for my band Neko using Vue.js and Node.js, showcasing newly acquired skills as a Junior Front-End Developer.
